

Model “BT” Wireline Pressure Setting Tool

Alpha Oil Tools manufactures wireline pressure setting tools in both #10 and #20 sizes. These tools provide dependable service for deployment of bridge plugs, packers, or cement retainers.

The Alpha Wireline Pressure Setting Tool operates the same as other #10 or #20 setting tools.

For complete details such as pricing, technical information or any other questions please contact your Alpha Oil Tools representative.

Alpha Oil Tools does not sell power charges or ignitons.

The information contained herein, is the property of Alpha Oil Tools, and is confidential. It may not be reproduced in any form without the written consent of Alpha Oil Tools. This information is subject to change without notice and does not represent a commitment on the part of Alpha Oil Tools and its representatives. Alpha plugs will not be guaranteed against failure from damage resulting from perforating above a plug which has not had cement dumped on it. This includes any other means of shock that will directly transfer to the plug.
