

B-1

Bridge Plug

Wireline

The B-1 Bridge Plug: a top-tier solution offering cost-effective temporary zone isolation for treatments. Designed for versatility, this plug can be set on wireline pressure setting tools and easily converted to a mechanical set with minimal parts change. With robust construction, the B-1 Bridge Plug maintains integrity under high pressures and temperatures, ensuring reliable performance in demanding environments.

The B-1 bridge plug is manufactured with drillable material for rapid drill out.

FEATURES

- Electric wireline set
- Drillable cast iron construction
- One piece grips
- Sets in any grade casing including P-110
- Form-fitting metal back-ups prevent rubber extrusion
- For temporary or permanent service
- Ratcheting lock ring holds setting force
